CONTENTS

423	D. S. Woronzov, M. E. Vvedensky's Role in the Development of Physiological Science	423
433	P. G. Kostyuk, Urgent Problems of General Electrophysiology	433
447	S. I. Fudel-Osipova and O. A. Martynenko, Dynamics of Development of the Membranous Potential of Muscle Fibres in Early Ontogeny	448
455	M. F. Shuba, Effect of Acetylcholine on the Physical Electrotonus in the Smooth Muscle	455
461	A. E. Khilchenko, S. I. Moldavskaya and N. V. Kolchenko, Mobility of the Basic Nerve Processes in Children of Various Age	462
466	T. A. Khlebutina, Mobility of the Nervous Process in Signal Systems in Healthy Subjects and Schizophrenia Patients	463
470	A. E. Korolyova, On Disturbance of the Higher Nervous Activity in Arteriosclerotic Imbecility	467
478	V. N. Dumenko, On the Electrographic Expression of Certain Forms of Internal Inhibition	480
486	V. A. Cherkas and N. A. Martynenko, Changes in the Biopotentials of the Cortex during Stimulation of the Caudate Nucleus by a Frequent Rhythm	487
495	A. P. Peleshchuk, Effect of Sleep on the Motor Function of the Human Stomach	496
500	E. L. Revutskiy, On Changes in the Temperature of the Contents of the Digestive Tract in Man	497
505	M. P. Stanets, Absorption Processes in the Stomach during Locomotion of the Animal	506
512	V. R. Feitelberg-Blank, Effect of Ultrasonic Waves on the Absorptive Capacity of the Stomach and Intestines	507
518	S. Y. Kaplun, E. G. Kopteva and V. A. Pavlik, On the Role of the Hypothalamic Region in the Mechanism of the Action of Salicylates on the Organism	518
523	I. V. Komissarenko, Isolation of 17-oxycorticosteroids and 17-ketosteroids as an Indicator of the Functional State of the Adrenal Cortex in Thyrotoxicosis Patients	519
531	Y. D. Kirshenblatt, A. P. Grechishkina, V. N. Serbenyuk and Z. G. Chigrina, Effect of the Parasympathetic Division of the Nervous System on the Sensitivity of Ovaries to Hormones	524
541	I. Mincu, Pathohistological and Histochemical Investigation of Hepatitis	542
550	B. A. Roitrub, Electrophoresis of the Protein Fractions of Native and Warmed Serum in Post-influenzal Diencephalitis	543

Methods

551	A. I. Khomazyuk, Kymographic Recording of Saturation of Blood with Oxygen by Means of a Cuvette and the 0-36 Oxyhemograph	551
553	S. A. Bernstein and I. R. Yevdokimov, Apparatus for Measuring the Diameter of Erythrocytes by the Light Diffusion Method	553
556	G. S. Yankovskaya, K. N. Knyazyeva and S. I. Krechmer, Method of Simultaneous Recording of Electromyograms, Mechanograms and the Amplitude of Motion in Joints.	556

Reviews, Scientific news

559	V. S. Raitses, A. V. Rickl, «Nervous Regulation of Interacting Vegetative Functions»	559
560	R. O. Feitelberg, At the Conference on Problems of the Physiology and Pathology of Digestion and Assimilation in the Organism	560
