

CONTENTS

<i>Frolkis V. V., Bogatskaya L. N., Novikova S. N.</i> The Effect of Protein Synthesis Inhibitor (Olivomycin) on the Development of Experimental Atherosclerosis in Rabbits	3
<i>Popovich L. F., Sagach V. F., Moibenko A. A.</i> Morphological Changes in the Heart During Reproduction of Different Types of Allergic Reactions	8
<i>Bazilyuk O. V., Bershtein S. A., Soloviev A. I.</i> The Significance of Endothelium in the Development of Transient Increase of Coronary Arteries Tonus at Hypoxigenation	16
<i>Laptev B. I., Afanasiev S. A., Prokopieva V. D., Larionov N. P.</i> Significance of Calmodulin-Dependent Reactions in Regulation of the Contractile Miocardium Function	22
<i>Kozlov A. G., Savitsky S. Yu., Yakovlev A. A.</i> Dependence of the Exogenous ^3H -Norepinephrine Capture by the Heart Against the Background of the Pharmacologic Modulators' Action	26
<i>Orlova N. N.</i> Reactive Hyperemia of the Myocardium After Experimental Coronary Insufficiency of Different Degree	30
<i>Mansurov T. A., Rakhmatullina V. A.</i> Changes in the Cardiac Rhythm and Its Regulation under Acute Heat Action	35
<i>Usenova M. Sh., Dolgova S. Ya., Dolgov E. G.</i> The Activity of Acid and Alkaline Phosphatases in Tissues of the Organism Exposed to Cooling and Superheating	39
<i>Verkhatsky A. N., Pidoplichko V. I.</i> Two-Component Character of Sodium Inward Current in the Membrane of Isolated Cardiomyocytes	44
<i>Gokina N. I., Gurovskaya A. V., Butenko I. G., Shuba M. F.</i> Serotonin Action on Electrogenesis and Contraction in Smooth Muscles of Basilar Artery	48
<i>Ryabokon I. N.</i> The Peculiarities of Prestart Emotional Tension of Sportsmen with Different Individual-Typological Properties of the Higher Nervous Activity	54
<i>Sinitsky V. N., Usherenko L. S., Kryzhanovskaya L. A., Zapotochny B. A.</i> Comparative Characteristic of the Influence of Certain Tricyclic Antidepressants on Mechanisms of Depressive States	61
<i>Bogatskaya L. N., Potapenko R. I.</i> Age Peculiarities of Acetylcholine, Norepinephrine and Vasopressin Effect on Na, K ⁺ -ATPase Activity of Plasma Membranes in the Rat Brain Nerve Endings	70
<i>Pavlyuk P. M., Evdokimova N. Yu., Bezdrobny Yu. V., Bozhok O. V.</i> State of the Insulin Receptor of Plasma Membranes from Adipose Cells with Increased Content of Thyroid Hormones in People Animals	74
<i>Alekseeva I. N., Nazarenko A. I., Pavlovich S. I., Skok M. V.</i> The Effect of Anticytochrome <i>c</i> Antibodies on the Liver Restoration and the Possible Participation of Antidiotypic Antibodies in Realization of Their Action	79
<i>Ataman A. V.</i> Peculiarities of the Tissue Respiration of Arterial and Venous Vessels	84
<i>Nagnibeda N. N., Nagnibeda I. M.</i> Changes of the Sympathoadrenal System Activity Under Conditions of Acute Hemic Hypoxia	89
<i>Sutkovoi D. A.</i> Lipid Peroxidation and α -Tocopherol Concentration in Blood of the Hypoxia-Adapted Rabbits with Acute Decompression	93

Brief Notes

<i>Litvin A. A.</i> Influence of the Health-Improving Running on Secretion of Certain Tropic Hormones in the Human Pituitary Body	96
<i>Bondarenko L. A., Pesotskaya P. M.</i> Melatonin and Prolactin: Daily and Seasonal Rhythms	98
<i>Roitrub B. A., Zlatin R. S., Limansky Yu. P.</i> The Tubocurarine Effect on the Caffeine-Induced Contracture of the Leech Dorsal Muscle	101
<i>Sergienko N. G., Pankov E. Ya., Rozumovich O. V.</i> Peculiarities of the Hormonal Regulation of Electrolytes Exchange in Rats with Different Convulsive Readiness	104
<i>Baraboi V. A., Orel V. E.</i> The Effect of Certain Biogenic Amines on Triboluminescence and Indices of Peroxidation in Canine Blood	108
<i>Butusova I. A., Popovich I. L., Yaremenko M. S.</i> The Influence of Mineral Water «Naftusya» on the Insulin and Gastrin Incretion	112

Reviews

<i>Voloshin M. Ya.</i> A Valuable Contribution to Modern Neurophysiology	116
<i>Cheredeev A. N.</i> New in Immunomembranology	118
