

CONTENTS

O.M. Omelchenko, M. Y. Makarchuk , M.P. Bondarenko, O.V. Bondarenko. Partial deactivation of default-mode brain network during simple motor task execution	3
O.M. Nikolaienko, E.V. Isaeva. Adult resocialization restores sociability, reduced by adolescent social isolation in rats	9
D.I. Bilko, Y.B. Tchaikovsky, I.Z. Russu, M.V. Pakhareno, I.Yu. Lahodniuk, N.M. Bilko. Morphofunctional characteristics of hematopoietic bone marrow progenitor cells in a humanized cell culture system in vivo	14
A.A. Kotvytska, K.V. Tykhonovych, T.D. Kryvoruchko, S.M. Berehovyi, K.S. Neporada. The state of periodontal tissues in rats against the background of their long-term alcoholization	23
A.O. Mykytenko, O.Y. Akimov, K.S. Neporada. Influence of lipopolysaccharide on the development of oxidative-nitrosative stress in the liver of rats under conditions of chronic alcohol intoxication	29
L.D. Liubich, L.P. Staino, D.M. Egorova, T.D. Skaterna, E.G. Pedachenko. The effect of conditioned media from various origins on the migration of neural cells in vitro	36
O.O. Kalashnikov. 3D-computer gastrovolumetry: a new method of visual estimation of a gastric tube for patients after sleeve gastrectomy	51
A.M. Petruk, I.I. Kamyshna, M.I. Shkilna, A.M. Kamyshnyi. Transcriptional activity analysis of the immune response genes in the peripheral blood of patients with comorbid acute urticaria and lyme borreliosis	58
I.N. Mikheyteva, V.R. Yurevich. Benfothiamine as an antioxidant in the drainage zone of the eye in combined modeling glaucoma and diabetes	68
A.S. Pustovalov, K.V. Ratushna, M.G. Matviienko, G.Ya. Grodzyuk, N.S. Andryushina, M.E. Dzerzhynsky. Morphofunctional changes of the rat hypothalamo-adrenal system under the influence of silver nanoparticles in obesity	74
A.S. Musiienko, N.V. Grygorieva, M.A. Bystrytska. Age-association features of fat and lean mass in men	84
S.N. Vadzyuk, B.B. Sas, O.M. Ratynska, S.S. Tkachuk. Features of psycho-emotional state in people with different stress resistance	92

HISTORY OF SCIENCE

M.P. Boichak. Arseniy Ivanovych Danylenko is a forgotten name of an outstanding ukrainian scientist-biophysicist, radiobiologist, researcher of natural radioactivity in Ukraine	98
